

ICT702

Data Visualisation

Task 2

Trimester 2

Assessment and Submission Details

Marks: 50% of the Total Assessment for the Course

Due Date: 9 am (AEST) Friday of Week 10

Submit your assignment to Canvas Task 2. Please follow the submission instructions in Canvas.

The assignment will be marked out of a total of 50 marks, it forms 50% of the total assessment for the course. **ALL** assignments will be checked for plagiarism by Turnitin system provided by Canvas automatically.

Refer to your Course Outline or the Course Web Site for a copy of the "Student Misconduct, Plagiarism and Collusion" guidelines.

Late submission will be penalised according to the policy in the course outline. Please note Saturday and Sunday are included in the count of days late.

Requests for an extension to an assignment **MUST** be made to the course coordinator prior to the date of submission and requests made on the day of submission or after the submission date will only be considered in exceptional circumstances. Assignment submission extensions will only be made using the official University guidelines.

Assignment Task 2

Scenario

In anticipation of the completion of your degree you have signed up with a new employment agency. The employment agency requires you to produce a portfolio of work which demonstrates your skills. One of the elements that is required within the portfolio is a data dashboard and an associated professional report.

You are required to find a data set which reflects one of your areas of interest and develop a data dashboard which could be used to increase participation in that area.

Assignment task

To complete this assignment, you will need to do the following:

1. Develop a statement that introduces the purpose/objective of your dashboard. It will need to explain what the dashboard will do to support decision making. (approx. 300 words)
2. Create a dashboard using Excel. Your dashboard will include a title, and you must make use of appropriate theories and principles to create least six different visualisations that will be useful to leaders of your area of interest, in their strategic decision making. You will be assessed on your creativity and use of concepts taught during the course.
3. Provide a statement that details how you have used theories and principles to develop appropriate visualisations. Your statement should take into consideration all stages from preparation to end product. (approx. 600 words)
4. Provide a statement detailing the information that can be obtained through the use of your dashboard and how this will help leaders in your area of interest, to achieve their objectives. Recommendations should be provided. (approx. 600 words)

Submission

There are two deliverables:

1. An **MS Excel** file containing your data dashboard.
2. A 1,500-word professionally formatted report submitted as a **MS Word** document.

The completed assignment is to be submitted by Turnitin on or before the due date.

The assignment will be assessed according to the marking sheet (please see the marking rubric at the end of this document). Late submission of the assignment will result in a percentage deduction of marks in accordance with the submission penalties stated in section 10.3 of the course outline. (This includes weekends.)

Assignment Advice

This assignment will take several weeks to complete and will require a good understanding of data visualisation theory and practice for successful completion. It is imperative that students take heed of the following points in relation to doing this assignment:

1. Ensure that you clearly understand the requirements for the assignment – what must be done and what are the deliverables.
2. If you do not understand any of the assignment requirements – Please **ASK** the course coordinator or your tutor.
3. Each time you work on any aspect of the assignment reread the assignment requirements to ensure that what is required is clearly understood.

Medical certificates

If you need to provide a medical certificate, please use the USC medical certificate form. We are unable to accept certificates without the use of this official USC medical certificate form.

Assignment Return and Release of Grades

Where an assignment is undergoing investigation for alleged plagiarism or collusion the grade for the assignment and the assignment will be withheld until the investigation has concluded.

End of Assignment

Appendix A

ICT702 Task 2 – Data Visualisation Artefact and Report Rubric

Criteria	High Distinction (85-100%)	Distinction (75-84%)	Credit (65-74%)	Pass (50-64%)	Fail (0-49%)
(15% / 7.5 marks) Capacity to analyse and respond to a scenario and develop a statement of purpose/objective for a data dashboard	Insightful Insightful and comprehensive reflection of the scenario requirements evidenced in an appropriate statement of purpose/objective.	Proficient and effective Proficient and effective reflection of the scenario requirements evidenced in an appropriate statement of purpose / objective.	Effective and accurate Effective and accurate reflection of the scenario requirements evidenced in a statement of purpose/objective.	Competent Competent reflection of the scenario requirements evidenced in a statement of purpose/objective.	Not competent Narrow/shallow reflection of the scenario requirements. Limited statement of purpose/objective.
(25% / 12.5 marks) Creation of a data dashboard to integrate a variety of insights from the source data	Skillful and seamless The data dashboard is skillfully constructed and seamlessly integrates and demonstrates a variety of data visualisations that provide insightful decision support.	Proficient and effective The data dashboard is proficiently constructed and integrates and demonstrates a variety of data visualisations that provide useful decision support.	Effective and competent The data dashboard is effectively constructed and demonstrates a variety of data visualisations that provide appropriate decision support.	Competent The data dashboard is competently constructed and demonstrates a variety of data visualisations that provide some decision support	Not competent The data dashboard is disjointed and provides limited decision support.

Criteria	High Distinction (85-100%)	Distinction (75-84%)	Credit (65-74%)	Pass (50-64%)	Fail (0-49%)
(25% / 12.5 marks) Knowledge and use of data visualisation principles and approaches	Insightful and proficient Clear explanation of data visualisation principles and approaches showing insightful understanding and their creative use within the data visualisations.	Proficient and effective Clear explanation of data visualisation principles and approaches which is evidenced in their proficient and creative use within the data visualisations.	Clear and competent Competent explanation of data visualisation principles and approaches which is evidenced in the clarity of their creative use within the data visualisations.	Satisfactory Satisfactory explanation of data visualisation principles and approaches which is evidenced in their creative and satisfactory use within the data visualisations.	Imprecise and vague Narrow/shallow discussion of data visualisation principles and approaches. Limited evidence of their use.
(20% / 10 marks) Capacity to communicate the potential of data insights and their usefulness.	Insightful and proficient Insightful and proficient explanation of the potential of the data insights and their usefulness to the intended audience.	Proficient and effective Proficient and effective explanation of the potential of the data insights and their usefulness to the intended audience.	Clear and competent Clear and competent explanation of the potential of the data insights and their usefulness to the intended audience.	Coherent Coherent but basic explanation of the potential of the data insights and their usefulness to the intended audience.	Imprecise and vague Narrow/shallow explanation of the potential of the data insights and their usefulness to the intended audience.

Criteria	High Distinction (85-100%)	Distinction (75-84%)	Credit (65-74%)	Pass (50-64%)	Fail (0-49%)
(15% / 7.5 marks) Ability to effectively organise, present and discuss data visualisations in a professional report	Skillful and insightful Skillfully constructed insightful report that organises, presents and discusses appropriate data visualisations in a professional manner.	Proficient and effective Effective and proficiently constructed report that organises, presents and discusses appropriate data visualisations in a professional manner.	Clear and competent Clear and competently constructed report that organises, presents and discusses appropriate data visualisations in a professional manner.	Coherent Coherent report constructed in a manner that provides a satisfactory presentation and discussion of appropriate data visualisations.	Not competent Basic report with inappropriate presentation of data visualisations. Limited discussion of the visualisations.
